## Introduction

Pour garantir une bonne marche des montres CERTINA, il est indispensable d'utiliser pour leur réparation les pièces de rechange d'ORIGINE, produites par la fabrique même.

La principale innovation de ce catalogue est l'indication des pièces concordantes, c'est-à-dire interchangeables entre différents calibres.

Ce catalogue se divise en deux parties principales :

### 1. Illustrations des calibres

#### a) Calibres avec illustrations des pièces de rechange

Sur la page de gauche se trouvent les vues du calibre, ses indications générales (dimensions, spécialité, etc.), ainsi que les illustrations des pièces de rechange. Les différentes pièces sont représentées à l'échelle 1 : 1, sauf les vis et les pierres pour lesquelles l'échelle 2 : 1 a été appliquée.

La page de droite contient la liste des différentes pièces de ce calibre, avec indication des calibres de base d'où proviennent certaines pièces. Les indications (2×), (3×) placées près du numéro d'une pièce signifient qu'il existe 2 ou 3 de cette même pièce par calibre.

#### b) Nouveaux calibres, fabriqués après parution de ce catalogue

Les illustrations respectives seront à classer à cet endroit.

#### c) Liste des autres calibres CERTINA

Elle comprend uniquement les vues des calibres avec les indications générales (dimensions, spécialité, etc.).

### 2. Liste des pièces de rechange avec tabelles de concordances

On trouve sous chaque pièce la liste de tous les calibres figurant dans la première partie. *Exemple* : N° 425, cliquet (page n° 124). Le cliquet du cal. 12-10 est interchangeable, donc identique à celui des calibres 248, 370, 12-11, 13-10, 13-11, 13-20, 13-21, 19-45, 19-451, 19-55, 19-551.

### Obtention rapide de pièces de rechange

Pour commander des pièces de rechange, il suffit d'indiquer :

1. Le numéro du calibre marqué sur le mouvement.
2. Le numéro de la pièce de rechange. (Le numéro de chaque genre de pièce est le même pour tous les calibres.)
3. La quantité.

*Exemple* : Pour obtenir 10 tirettes du calibre 8  $\frac{3}{4}$ " 19-30, veuillez commander tout simplement :

Cal. 19-30 n° 443, 10 pièces.

*Cas particuliers* : Pour les pièces suivantes, veuillez spécifier, en plus du calibre et du numéro de la pièce :

1. Pièces n<sup>os</sup> 200, 205, 227, 227/1, 240, 245, 250, 275 : la hauteur totale des pièces désirées, au cas où il y a un cadran bombé au centre.
2. Balancier n° 721 : s'il s'agit d'un balancier en glucydur (Gl) ou en nickel (Ni).
3. Indicateur de quantième n° 2557/1 : la couleur des chiffres, soit noire ou rouge.
4. Aiguilles : le genre, n° 1-9, la couleur et la longueur (distance entre le centre du trou et la pointe).
5. Cadrons et pièces détachées pour boîtes : le numéro de référence marqué sur le fond de la boîte.

*Remarques* : Nous appelons :

|                          |                   |
|--------------------------|-------------------|
| dessus = le côté ponts   | } des mouvements. |
| dessous = le côté cadran |                   |

Les pièces d'ébauches (platines, ponts, etc.) sont livrées empierrées et avec revêtement galvanique.

Les vis avec filetage à gauche ont 3 fentes.

Ce catalogue remplace les précédents.

---

## Introduction

To maintain the high performance of CERTINA watches, the spare parts used for repair purposes must always be ORIGINAL spare parts manufactured and tested at the CERTINA factory.

The chief innovation of this catalogue is that it tells you which components are the same for various calibres and therefore interchangeable.

This catalogue comprises two main parts :

### 1. Calibre illustrations

#### a) Calibres with illustrations of spare parts

The left side shows the calibre views with the general technical data (size, peculiarities, etc.), and the illustrations of the spare parts. Each part is shown in actual size, except for the screws and the jewels, which are shown double their actual size.

The right-hand side presents a list of the various spare parts of this calibre, with references to the basic calibres from which some parts have been adopted. The notes (2×) or (3×) immediately after the reference number denote that the particular parts come up 2 or 3 times in the same calibre.

#### b) Calibres made after publication of this catalogue

Please insert here any new calibre illustrations.

#### c) List of the remaining CERTINA calibres

This only comprises the calibre views and general technical data (size, peculiarities, etc.).

### 2. List of spare parts and their applicability to various calibres

Listed under each spare part are all the calibres mentioned in Part 1. Example : No. 425, click (page No. 124). The cal. 12-10 click is interchangeable within the calibres 248, 370, 12-11, 13-10, 13-11, 13-20, 13-21, 19-45, 19-451, 19-55, 19-551.

### Quick delivery of spare parts

To order spare parts, the following data are sufficient :

1. The calibre number engraved in the movement.
2. The spare part number. (This number is the same for all calibres.)
3. The quantity required.

Example : For 10 setting levers for cal. 8  $\frac{3}{4}$ " 19-30, order :  
Cal. 19-30 No. 443, 10 units.

Special cases : *For the following spare parts, the calibre number and the spare part number must be supplemented with the following data :*

1. *For spare parts Nos. 200, 205, 227, 227/1, 240, 245, 250, 275 : state the total height of these parts if intended for a watch having a cambered dial.*
2. *For balance wheel No. 721 : state whether it is of glucydur (Gl) or nickel (Ni).*
3. *For date indicators No. 2557/1 : state whether red or black numerals are required.*
4. *For hands : state the type (Nos. 1-9), the colour and the length (length = distance from centre of hole to tip).*
5. *For dials and accessories for cases : state the reference number stamped on the case bottom.*

Notes : *In our terminology :*

“ upper ” = bridge side }  
“ lower ” = dial side } of movements.

*The frame parts, such as plates, bridges, etc., are provided with jewels and are electroplated.*

*Screws : The 3-slot screws have left-hand thread.*

*This catalogue supersedes all previous editions.*

---

## Introducción

Con el fin de garantizar la buena marcha de los relojes CERTINA, es indispensable utilizar en su reparación las piezas de recambio ORIGINALES realizadas y controladas por la propia fábrica.

Como novedad principal, este catálogo le informará detenidamente sobre la intercambiabilidad de las diferentes piezas dentro del sistema de nuestros varios calibres.

El presente catálogo se compone de dos partes principales que son las siguientes :

### 1. Ilustraciones de los calibres

#### a) Calibres con ilustración de las piezas de recambio

En la parte izquierda se encuentran las ilustraciones de los calibres e indicaciones técnicas generales (dimensiones, especialidades, etc.), así como las ilustraciones de las piezas de recambio. Las ilustraciones son representaciones que van a la escala 1 : 1 para las piezas y 2 : 1 para los tornillos y piedras.

La parte derecha contiene una lista de las diferentes piezas de recambio de este calibre, con indicación del calibre de base, del cual fueron mantenidas ciertas piezas especiales. Las indicaciones (2×) y (3×) situadas al lado del número de la fotografía de la pieza significa que hay 2 o 3 de estas mismas piezas por máquina.

#### b) Calibres que serán manufacturados después de la edición del presente catálogo

Sírvanse clasificar las respectivas ilustraciones después de su recibo.

#### c) Lista de los demás calibres CERTINA

Esta parte contiene únicamente las ilustraciones de los calibres e indicaciones técnicas generales (dimensiones, especialidades, etc.).

### 2. Lista de las piezas de recambio con su respectiva intercambiabilidad dentro de los varios calibres

Bajo cada una de las piezas son designados todos los calibres que son mencionados en el primer párrafo. *Ejemplo* : No. 425, trinquete (página No. 124). El trinquete del calibre 12-10 es intercambiable para los calibres 248, 370, 12-11, 13-10, 13-11, 13-20, 13-21, 19-45, 19-451, 19-55, 19-551.

### Obtención rápida de las piezas de recambio

Basta con indicar :

1. El número de la máquina (marcado en el movimiento).
2. El número de la pieza de recambio (este número queda el mismo para todos los calibres).
3. La cantidad.

*Ejemplo* : Para pedir 10 muelles de tirete para el calibre 8  $\frac{3}{4}$ " 19-30, Ud. formula :  
Cal. 19-30, No. 443, 10 piezas.

*Casos especiales* : En los casos siguientes, sírvanse indicar, además del número de la máquina y del número de la pieza :

1. Para las piezas No. 200, 205, 227, 227/1, 240, 245, 250, 275 : la altura total de estas partes cuando se destinan a relojes con esfera redonda (esfera abombada en el centro).
2. Para el volante No. 721 : si se trata de un volante de « glucydur » (Gl) o de níquel (Ni).
3. Para los indicadores de fecha No. 2557/1 : si llevan cifras rojas o negras.
4. Para las agujas : la forma (No. 1-9), el color y el largo de la aguja (longitud = distancia desde el centro del agujero hasta la punta).
5. Esferas y piezas sueltas para cajas : el número de referencia grabado en el fondo de la caja.

*Observaciones* : Hemos denominado :

« superior » = la parte puentes } de las máquinas.  
« inferior » = la parte esfera }

Las piezas de la máquina en bruto (Ebauches), como la platina, puentes, etc., se suministran con su pedrería y con revestimiento galvánico.

Tornillos : Los tornillos a 3 ranuras tienen una rosca que gira por la izquierda.

Este catálogo anula todos los anteriores.

---

## Einführung

Um einen einwandfreien Gang der CERTINA-Uhren zu gewährleisten, dürfen für Reparaturzwecke nur ORIGINAL-Ersatzteile verwendet werden, die von der CERTINA-Fabrik selbst hergestellt und kontrolliert wurden.

Als hauptsächlichste Neuerung gibt Ihnen dieser Katalog Auskunft über diejenigen Bestandteile, welche bei verschiedenen Kalibern übereinstimmen und auswechselbar sind.

Der vorliegende Katalog umfasst zwei Haupt-Abschnitte :

### 1. Kaliber-Abbildungen

#### a) Kaliber mit Abbildung der einzelnen Ersatzteile

Auf der linken Seite befinden sich die Kaliber-Ansichten mit allgemeinen technischen Angaben (Grösse, Besonderheiten, etc.), sowie die Abbildungen der Ersatzteile. Die einzelnen Teile sind im Masstab 1 : 1 wiedergegeben, mit Ausnahme der Schrauben und der Steine, für welche der Masstab 2 : 1 angewendet wurde.

Die rechte Seite enthält eine Liste der verschiedenen Ersatzteile dieses Kalibers, unter Aufzählung der Grundkaliber, von welchen gewisse Teile übernommen sind. Die Vermerke (2×) oder (3×) unmittelbar nach der Referenznummer bedeuten, dass diese Teile im gleichen Kaliber 2 oder 3 mal vorkommen.

#### b) Kaliber, welche nach Erscheinen dieses Kataloges hergestellt werden

Bitte die entsprechenden Kaliber-Abbildungen nach Erhalt hier einordnen.

#### c) Liste der übrigen CERTINA-Kaliber

Sie umfasst lediglich die Kaliber-Ansichten und allgemeine technische Angaben (Grösse, Besonderheiten, etc.).

### 2. Verzeichnis der Ersatzteile und deren Übereinstimmung in verschiedenen Kalibern

Unter jedem einzelnen Ersatzteil sind sämtliche Kaliber aufgeführt, die im 1. Abschnitt erwähnt werden. Beispiel : No. 425, Sperrkegel (Seite No. 124). Der Sperrkegel Kal. 12-10 ist auswechselbar für die Kaliber 248, 370, 12-11, 13-10, 13-11, 13-20, 13-21, 19-45, 19-451, 19-55, 19-551.

### Rasche Lieferung von Ersatzteilen

Für das Bestellen von Ersatzteilen genügen folgende Angaben :

1. Die in das Werk eingravierte Kaliber-Nummer.
2. Die Ersatzteil-Nummer. (Diese Nummer bleibt für alle Kaliber gleich.)
3. Die gewünschte Menge.

Beispiel : Um 10 Stellhebel für Kal. 8  $\frac{3}{4}$ " 19-30 zu erhalten, bestellen Sie :  
Kal. 19-30 No. 443, 10 Stück.

Besondere Fälle : Für die folgenden Ersatzteile muss zusätzlich zur Kaliber-Nummer und Ersatzteil-Nummer noch erwähnt werden :

1. Für Ersatzteile Nr. 200, 205, 227, 227/1, 240, 245, 250, 275 : die Totalhöhe dieser Teile, falls sie für eine Uhr mit gewölbtem Zifferblatt bestimmt sind.
2. Für Unruh Nr. 721 : ob es sich um eine Glucydur- (Gl) oder Nickel- (Ni) Unruh handelt.
3. Für Datumanzeiger Nr. 2557/1 : ob rote oder schwarze Zahlen gewünscht werden.
4. Für Zeiger : die Art (Nr. 1-9), die Farbe und die Länge (Länge = Distanz zwischen Lochzentrum und Spitze).
5. Zubehörteile für Gehäuse und Zifferblätter : die auf dem Gehäuseboden eingeprägte Referenznummer.

Bemerkungen : Wir nennen :

« oben » = Brückenseite }  
« unten » = Zifferblattseite } der Werke.

Die Gestellteile (Ebauches), wie Werkplatte, Brücken etc., sind mit Steinen versehen und haben einen galvanischen Überzug.

Schrauben : Die 3-schlitzigen Schrauben sind mit Linksgewinde versehen.

Dieser Katalog ersetzt die früheren Ausgaben.

---

## Introduzione

Al fine di garantire una marcia impeccabile degli orologi CERTINA bisognerà impiegare, per le riparazioni, soltanto dei pezzi di ricambio GENUINI fabbricati dalla CERTINA e da essa controllati.

Come principale innovazione, questo catalogo dà informazioni su quei pezzi di ricambio che sono in relazione ai diversi calibri e ricambiabili.

Il presente catalogo consta di 2 parti principali:

### 1. Illustrazioni dei calibri

#### a) Calibri con illustrazione dei singoli pezzi di ricambio

Nella parte sinistra si trovano le immagini dei calibri con indicazioni tecniche generali (grandezza, particolarità ecc.), come pure le illustrazioni dei pezzi di ricambio. I singoli pezzi sono riprodotti alla scala 1 : 1, all'eccezione delle viti e delle pietre, per cui è usata la scala 2 : 1.

La parte destra contiene una lista dei diversi pezzi di ricambio di questo calibro, menzionando il calibro di base, da cui sono stati tolti alcuni pezzi. Le indicazioni (2×) o (3×) poste immediatamente sotto il numero di referenza, significano che questi pezzi entrano 2 o 3 volte nello stesso calibro.

#### b) Calibri che verranno eseguiti dopo l'edizione di questo catalogo

Si prega di classificare le corrispondenti illustrazioni del calibro in questo posto dopo ricezione.

#### c) Lista degli altri calibri CERTINA

Consta unicamente delle viste dei calibri con dati tecnici generali (grandezza, particolarità ecc.).

### 2. Lista dei pezzi di ricambio e della loro corrispondenza in diversi calibri

Sotto ogni pezzo di ricambio sono menzionati tutti i calibri indicati nella parte prima.  
*Per esempio* : No. 425, cricco (pagina No. 124).

Il cricco cal. 12-10 è ricambiabile per i calibri 248, 370, 12-11, 13-10, 13-11, 13-20, 13-21, 19-45, 19-451, 19-55, 19-551.

### Rapida fornitura di pezzi di ricambio

Per l'ordinazione di pezzi di ricambio, bastano le indicazioni seguenti:

1. Il numero del calibro inciso nel meccanismo.
2. Il numero del pezzo di ricambio (questo numero resta lo stesso per tutti i calibri).
3. La quantità desiderata.

*Esempio* : Per ottenere 10 levette di messa all'ora per il cal. 8  $\frac{3}{4}$ " 19-30, ordinate :  
Cal. 19-30 No. 443, 10 pezzi.

*Casi speciali* : Per i seguenti pezzi di ricambio, si dovrà indicare, in più del numero del calibro e del numero del pezzo di ricambio :

1. Per i pezzi di ricambio No. 200, 205, 227, 227/1, 240, 245, 250, 275 : l'altezza totale di questi pezzi, in caso che l'orologio è munito di un quadrante incurvato.
2. Per il bilanciere No. 721 : se si tratta di un bilanciere in glucydur (Gl) o in nichelio (Ni).
3. Per l'indicatore della data No. 2557/1 : se si desiderano numeri rossi e neri.
4. Per le sfere : il genere (No. 1-9), il colore e la lunghezza (lunghezza = distanza fra il centro del foro e la punta).
5. Per i quadranti e per le parti della cassa : il numero di referenza inciso sul fondo della cassa.

*Osservazioni* : Denominiamo :

« sopra » = lato dei ponti  
« sotto » = lato del quadrante } dei meccanismi.

I pezzi della gabbia (ébauches) come la piastra, i ponti ecc. sono muniti di pietre ed hanno un rivestimento galvanico.

Viti : Le viti a tre intagli sono munite di un filetto a sinistra.

Questo catalogo rimpiazza le edizioni precedenti.
